## In a Car Without a Booster Seat

To keep them safe, your children have to wait until they're tall enough to ride their favorite roller coaster. In the same way, tell them **"You Must Be This Tall to Ride"** in a car without a booster seat.

The American Academy of Pediatrics recommends that until they are **4 feet 9 inches tall and 8-12 years old**, children should ride in a booster seat. Remember to always follow the guidance provided by your booster seat manufacturer.
