

# SAFE TRAVEL FOR KIDS

What do milk and car seats have in common?

They both have an expiration date!!

# 6-YEARS

From Date of Manufacture\*

\*Expiration dates vary by manufacturer. Check the manual for your specific seat.

## Why do seats expire?

- Weakening of materials and parts.
- Loss or breakage of parts.
- Older seats will often NOT meet current government safety standards.

Check your child's car seat or booster seat for a label with the expiration or manufacture date.
